

ECE 346: Connect to Wi-Fi

First, you will need to connect your ECE 346 laptop to a Wi-Fi network. To connect to eduroam, open your terminal and run

```
python3 ~/Downloads/eduroam-linux-Princeton_University-Princeton_eduroam.py
```

If you don't see this file, you can temporarily connect to puvisitor using a non-Princeton email to [download it](#). Click 'Yes' and enter one group member's username, i.e., netid@princeton.edu and corresponding password. Then navigate to your Wi-Fi networks by clicking the top right of your screen, selecting the Wi-Fi logo followed by 'Select Network', 'eduroam', 'Connect'.
